How Head of IT PMO ensures enterprise-wide adoption of Agile transformation

Sergey Fishkin, Account Executive, Targetprocess
Agenda

3 things to challenge on the scaled agile journey

- Flow
- Stop Manufacturing
- Track success for Value streams
Shift Focus from Utilization to Flow

- Stop concerning about plans and small activities
- Remove that thinking of making everyone busy finishing projects

Instead:
- Focus on Why THIS IS BUILT
- Create ways to track business value
- Share with the team the value and effect they are creating
Shift from Manufacturing to Developing

- Create solutions to the problems
- Discover what to build
- Organize a bit different
Shift to Value Streams

- Eliminate tracking success based on a project or functional department silos
- Organize around Value Streams
- Track the metrics (value, cost...
Conclusion

- Purpose of Agile Transformation
- The goal is not agile
- Agile transformation is 50% accomplished
Q&A / Thank you
